*Maintanance is key!  
So try it on desktop and mobile!*

This button has the action type "Back"

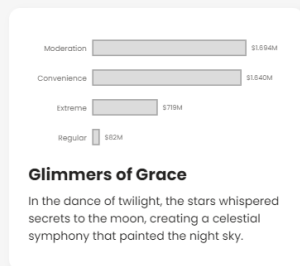

## Create a hidden page as menu

The hidden pageview is "fit to width". The bg color of the wallpaper is grey. The canvas background 100% transparent. The canvas shadow is gone!

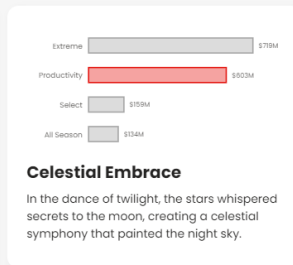

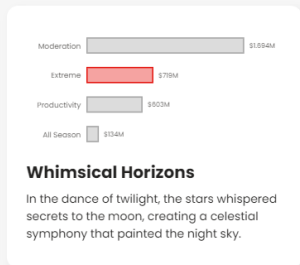

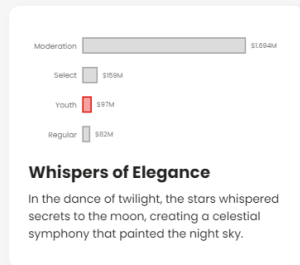

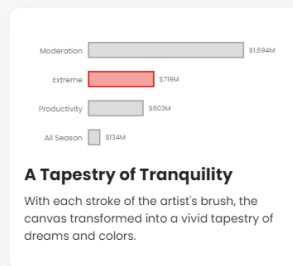

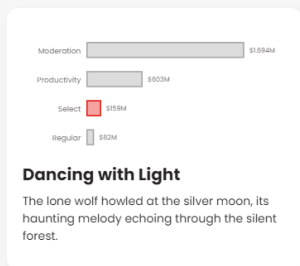

### A Visual Symphony of Enchanting Moments

### Capturing Beauty in Every Frame

### Exploring the Sublime in Nature's Palette

# Action type Page Navigation

The destination of the hamburger button is our hidden page called "Menu"

CAESAR GROEP | Coca Cola

Een barchart, of staafdiagram, is een grafische voorstelling van gegevens waarbij rechthoekige balken of staven worden gebruikt om de waarden van verschillende categorieën weer te geven. De lengte van elke balk correspondeert met de waarde die het vertegenwoordigt. Barcharts worden vaak gebruikt om categorische gegevens weer te geven en zijn effectief in het tonen van vergelijkingen tussen verschillende categorieën.

## Capturing Beauty in Every Frame

### Glimmers of Grace

In the dance of twilight, the stars whispered secrets to the moon, creating a celestial symphony that painted the night sky.

Moderation	\$1,694M
Convenience	\$1,640M
Extreme	\$719M
Regular	\$82M

### Dancing with Light

The lone wolf howled at the silver moon, its haunting melody echoing through the silent forest.

Extreme	\$719M
Productivity	\$603M
All Season	\$134M

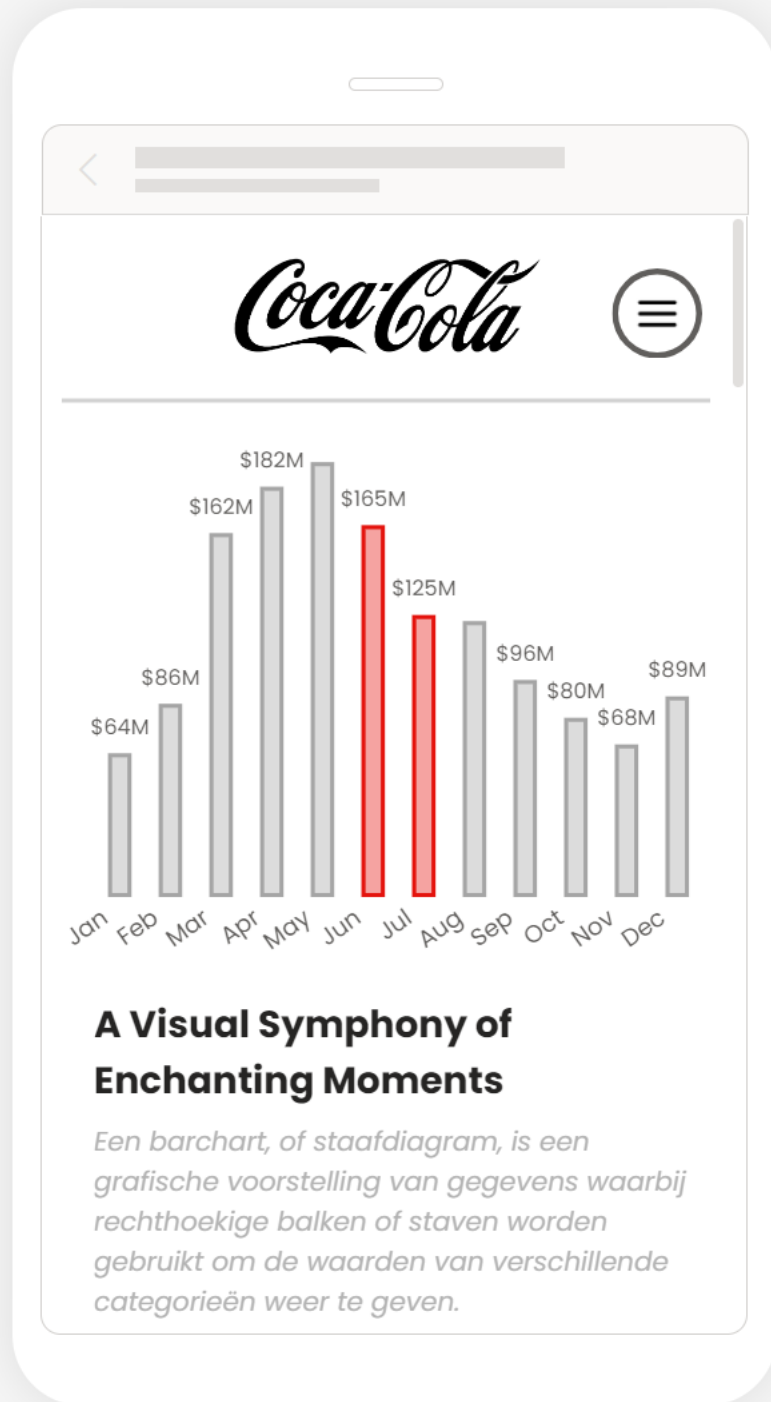

After the click on the hamburger button the hidden page opens up!

Example in the Service

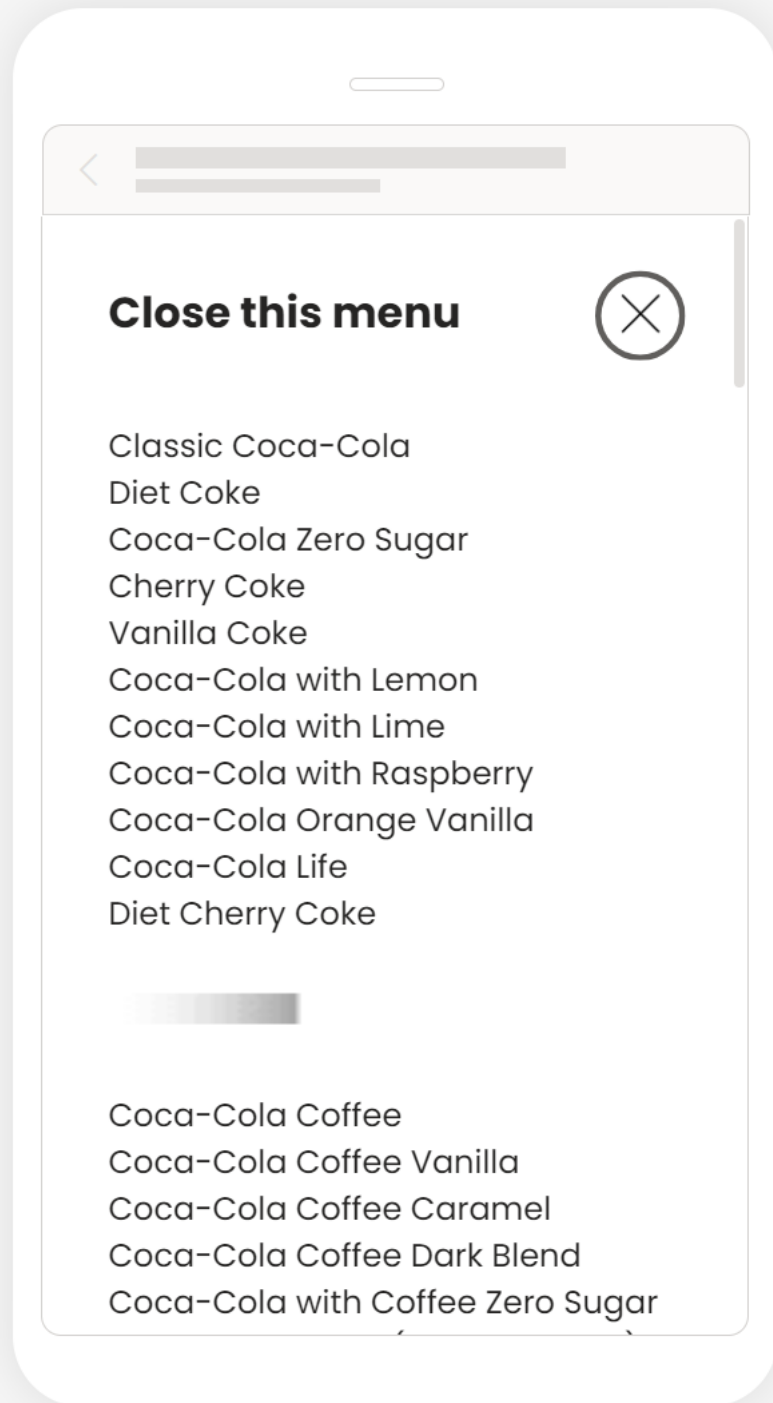

After the click on the close button the back function opens the previous page

## Example in the Service

## Create the mobile page

When you drag and drop all elements inside the mobile canvas the hamburger action is the same as the desktop version! So Page type “navigation” and destination is the hidden page called “Menu”

---

## Create the mobile menu page

When you drag and drop all elements inside the mobile canvas the simple menu is ready.

The “close this menu button” works like in the desktop version! It will go back to the previous page!

**You create just one  
hidden page as a  
navigation panel for all  
your pages!**
